

RFP & GRANT ASSISTANCE SOLUTIONS

At Trilogy Health Solutions (THS), we understand the importance of responding to a request for proposal (RFP) or grant opportunity. It is vital to craft a response that provides a compelling and unique solution for the potential work. Expertise, quality, and expedience are equally critical elements for submitting a successful response. Often companies do not have the time, background, or expertise for this development.

Our THS seasoned consulting team is poised to provide the government healthcare program RFP and grant assistance you need to craft an exceptional and distinctive response and set your proposal above your competitors. THS's customizable RFP and grant assistance allows you and your team to focus your energy where it matters most – on your members.

CUSTOMIZABLE RFP & GRANT ASSISTANCE SOLUTIONS

- Assist with preparation and any required revisions of a grant or RFP application
- Development of a project plan to meet all internal and submission deadlines
- Review of all applicable state, federal, or other guidelines and regulations to ensure a fully compliant and comprehensive RFP or grant response
- Conduct interviews and secondary research as necessary for the application
- Assist and support the development of an RFP/Grant response team
